Springing Ahead to Easter

We survived one of the most bitter cold winters that we have ever seen here in central Europe. The cold dampened much of the unrest and put a stop to the demonstrations that we had been seeing. We had planned a major outreach in Bruxelles for Easter weekend but saw our attendance dwindle as a public transit worker was killed the day before Easter and all public transit was shut down for the weekend. This continued until monday afternoon and since most who live within the city do not have vehicles we were limited to only those who live within our city. The other church that we assist saw good attendance on Easter morning with a breakfast and a missionary speaker. We are looking into renting a multipurpose building for a series of three evens in the fall and would ask that you pray with us about this. We really need to find something that fits our needs and our budget to do a major outreach into the city of Bruxelles. We are also exploring studying flemish in the fall as we have found a free language school in Bruxelles.

Thank you for:
